I'm Junior full stack software engineer having 4 plus years of experience. Strong experience in development of web applications for using HTML, CSS, JavaScript, JQuery, Angular, ReactJS, Nextjs, Drupal(CMS), JSON, SQL database, MongoDB, Postgresql. Well-versed in numerous programming languages including JavaScript, python, and SQL. I worked as Network Support Admin with over 2 yrs of IT Support experience in Desktop, Windows 7/8/10, Linux(Ubuntu), Network Support with switches, routers, printer and server.

WORK EXPERIENCE

July 2019 – Now

Web development

Institut Haitien de Statistique et Information (IHSI)

- IHSI is a specialized Haitian public institution, responsible for producing quantified and reliable informations on all aspects of economic, social, demographic etc. This information is available to government authorities, national and international organizations and users of all kinds.

I joined IHSI as web developer where i have been contributed in many haitian government projects.

- Developed user interfaces with modern javascript framework.
- Developed object-oriented code in nodejs.
- Designed and developed dynamic web pages using Drupal, HTML, CSS, Python, and Javascript, ReactJS, Nextjs, Django.
- Developed API services (REST API and GraphQL)

Nov 2018 – June 2019

Web development

Pixel

- Pixel is the Junior Enterprise of Computer Science and Information Systems, I joined hoping to learn more about Web Development. It's a non-profit organization created by students.
- The technologies that I started to learn during this time were: HTML5, CSS3, Javascript.

July 2015 – Dezember 2018

Network Administrator

MagLab/Gemco, UFSC

- MagLab is the Electromagnetism and Electromagnetic Compatibility Laboratory of the Department of Electrical and Electronic Engineering at the Federal University of Santa Catarina (UFSC). During this time i realized theses following tasks:
- Maintaining IT network systems.
- Supporting hardware and software system upgrades.
- Supporting network infrastructure, which involved with devices such as routers, switches, and wireless access points.
- Providing technical support, troubleshooting and diagnosing hardware/software problems.

EDUCATION

2013 – 2019

Bachelor's degree in Computer Science

Federal University of Santa Catarina (UFSC)

2007 – 2010

Bachelor's degree in Computer Science

Autonome University of Port-au-prince (UNAP)

- Incomplete formation
